Key: (C) Children's Hospital
 (G) General Hospital
 (M) Maternity Hospital
 (T) Transport Service

Please note if ringing another country, an international dialling code must be used first, followed by the area code. When making a call within NZ or Australia, a leading zero is used to indicate a national call.

Calling from	International dialling codes		
	Land-line or CDMA voice	Fax	GSM Cellular (voice/fax)
Australia	0011	0015	+
New Zealand	00	00	+

In international format, the international dialling code is represented by a '+' and from a GSM cellular phone, the '+' key works in any country.

i.e. From Australia, Christchurch Women's Hospital is +64 3 364 4885 or 0011 64 3 364 4885. If faxing, the format would be 0015 64 3 364 4883

From New Zealand. Flinders Medical Centre would be +61 8 8204 5041 or 00 61 8 8204 5041. There isn't a separate faxing international dialling code in NZ.
