## BPharm Integrated Curriculum Programme Outline

### Part II (32w)

- **PHARMACY 211** Applied Science for Pharmacy
  - Chemistry 5.5w
  - Pharmacology 3.5w
  - Pathology 1.0w
- **PHARMACY 212** Pharmaceutical Science and Practice
  - Clinical Pharmacy Practice and Human Health 7.5w
  - Pharmaceutical Science 5.0w

### Part III (32w)

- **PHARMACY 311**
  - Respiratory System 4.0w
  - Cardiovascular System 4.0w
  - Gastrointestinal System 4.0w
- **PHARMACY 312**
  - Endocrine System 4.0w
  - Reproductive System 4.0w
  - Immune System 4.0w

### Part IV (32w)

- **PHARMACY 411**
  - Otorhinolaryngology 2.0w
  - Neurology 4.0w
  - Psychiatry 4.0w
- **PHARMACY 412**
  - Paediatrics 4.0w
  - Geriatrics 4.0w
  - Oncology 4.0w

*Note: Course titles are illustrative, specific courses may vary.*

**Assessment:**
- Pre-module: 1 w
- Mid-module: 1 w
- Post-module: 1 w

- **PHARMACY 410**
  - Interprofessional Experience 1 w
  - Interprofessional Experience 2 w
  - Interprofessional Experience 3 w
  - Interprofessional Experience 4 w
  - Interprofessional Experience 5 w

*Note: Interprofessional experiences are spread across the semester.*

**2020 University of Auckland School of Pharmacy Placement Schedule**

**Part II students Placement Module 1**

**Part III students Placement Module 2**

**Part IV students Placement Module 4**

**Part IV students Placement Module 5**

**Part III students Placement Module 3**
Domains of Learning for Placement Programme in new BPharm Curriculum

Domain 1: Professional and Ethical Practice in Pharmacy
The focus of this domain is on:
• Developing understandings, attitudes and competencies, including cultural competence, as an ethical professional acting within legal frameworks and standards;
• Demonstrating personal and professional integrity to deliver patient-centred care.
• Demonstrating self-management skills.

Domain 2: Communication and Collaboration
The focus of this domain is on:
• Developing skills, attitudes and behaviours to communicate with health consumers, family/whānau and colleagues to support care and wellbeing;
• Developing understandings, attitudes and competencies to engage in effective collaboration within diverse groups.

Domain 3: Health and Medicine Management to Promote Optimal Use of Medicines
The focus of this domain is on:
• Developing the understandings and abilities to work in partnership with health consumers, whānau and other health care professionals to optimise the use of medicines.

Domain 4: Primary and Preventative Healthcare
The focus of this domain is on:
• Developing understandings, attitudes and competencies in providing primary health care in collaboration with health consumers and other health professionals to improve health outcomes.

Domain 5: Supply and Administration of Medicines
The focus of this domain is on:
• Developing understandings, attitudes and skills in the safe and accurate supply of medicines to support the quality use of medicines.
• Developing skills and knowledge for pharmaceutical product preparation within a quality assurance framework.

Domain 6: Leadership and Organisational Management
The focus of this domain is on:
• Developing understandings of leadership skills and management processes required to manage resources and information effectively to optimise quality service delivery within a safe and secure work environment.

*It is not expected that all six Domains and all Learning Outcomes will be covered in each individual Placement, however it is expected that by the end of the BPharm programme students will have met the requirements for all five Placements Modules, and that they will have achieved the Learning Outcomes in all six Domains. For more information please visit our website Pharmacy Placement Information (https://flexiblelearning.auckland.ac.nz/pharmacy-placements-information/).
