COVID Symptom and contact screening

- **Symptoms** - Do you have new or worsening symptoms of:
  - cough, sore throat, shortness of breath, coryza (head cold, running nose, sneezing), anosmia (loss of smell) with or without fever, myalgia (muscle pain) or nausea/vomiting?

- **Contact:**
  - known positive/probable COVID-19 case in last 2 weeks?
  - someone who has returned from overseas in the last 2 weeks?
  - been contacted by Public Health and identified as a ‘Close’, or ‘Casual Plus’ contact.
If you have been unwell you must be symptom-free for ≥48 hours from a non-COVID related illness (e.g. a cold).
Basic hygiene protocols

- recommended to **wear a mask** on campus
- hand sanitise upon entering the teaching room
- keep a 1m distance from others (where feasible)
- avoid touching eyes/nose/mouth
- hand sanitise upon leaving the teaching room
