

PALLIATIVE CARE E-LEARNING

This exciting, interactive module is aimed at medical students from years 3-6 and beyond into your career as a doctor. Follow the link below...

<https://flexiblelearning.auckland.ac.nz/palliativecare/>

Integration with the [UoA medical school palliative care curriculum](#)

- *The e-learning is designed to enhance your palliative care formal learning and also links with the year 5 palliative care practicum where it acts to facilitate your learning around your hospice contact day.*
- *You are encouraged to dip in and out of the e-learning and access relevant content to meet your own needs throughout medical school as ALL doctors require a good grasp of the principles of palliative care.*

RESOURCES INCLUDE

- Concise power point slides
- Video and audio presentations
- Links to external learning resources such as videos, relevant literature and web pages
- Integrated learning tasks and MCQs

Module Overview...

You will follow a Māori woman called Aroha, through her journey living with and dying from advanced cancer in a series of 'visits' to see her at her home.
