LOCAL DHB LIBRARY

When you are hospital-based, get to know about the local DHB Library and the services they can offer - this will assist with many of your library needs.

PHILSON LIBRARY

Continue to use Philson’s online resources as usual – databases, point of care tools, e-books etc.

Use the Library’s Flexible Service (see details later) to request delivery of print resources eg, books not available online.

Megan Clark (Philson Library Manager) is your Subject Librarian, she is happy to help with any problems or questions – eg, if you can’t get a book back to Philson on time!

Email: mp.clark@auckland.ac.nz   Phone: (09) 3737599 ext. 86130.
Alternatively: contact Sue Foggin, sm.foggin@auckland.ac.nz ext. 86123.

YEAR 4-6 READING LIST

Details the main readings for each attachment. Where possible, online access is provided. For those only available in print, click the title to view details, you can request delivery via the Flexible Service.

Find this list via the Library website (Note: it should also be linked in Canvas):
https://www.library.auckland.ac.nz/ >> type reading lists in the Search everything box >> click the Talis – reading lists link >> search for mbchb >> find the list called MBChB Year 4-6, Megan Clark (Full Year 2016)

At the top of the list are links to a range of Point of Care Tools - these are useful to provide a “second opinion” to Up-to-Date:

Dynamed and Best Practice
These are similar to Up-to-Date ie, more like an extensive electronic textbook with “chapters” on a wide range of clinical conditions.

ClinicalKey and OvidMD
These both include many different resources (eg, extensive ranges of full text e-books, full text journal articles, article references from Medline, guidelines, images, drug information) which can be searched all together, or individually.
