### Staff Recommended Readings

**Endometriosis: symptoms, diagnosis and management**

### Recent Articles

- **Half of all safety warnings issued to drug manufacturers in India and China**  
The majority of warnings from European and US drug regulators are to drug manufacturing sites in India and China, raising concerns about the fragility of the global supply chain.

- **India and China spark concerns for UK drug supplies**  
Recent regulatory breaches at drug manufacturing sites in India and China have raised questions about whether the UK needs to repatriate production of critical medicines.

- **Opioids users should have annual reviews to protect them from potential harm, says updated Scottish guidelines**  
Patients who are given opioids for pain relief should have their medicines reviewed soon after they are prescribed and at least annually after that, according to updated guidance from the Scottish Intercollegiate Guidelines Network.
Early diagnosis and multi-modal treatment is necessary to improve quality of life in adolescents and women with endometriosis.

**Polypill cuts risk of heart attacks by more than a third in patients aged over 50 years, study finds**
A four-in-one daily pill has been found to reduce the risk of cardiovascular events by more than 30% in patients aged over 50 years, according to a five-year study published in The Lancet.

**First CCG enables all GPs to send prescriptions to pharmacies electronically**
Portsmouth clinical commissioning group has become the first in the country in which all GP practices are able to send electronic prescriptions that can be processed by any pharmacy.

**Community Pharmacy Scotland 'hopeful' pharmacists will be paid per consultation under universal minor ailments service**
Community pharmacists in Scotland are asking to be paid per consultation under the revamped national minor ailments service.

**Pharmacists to receive 10p more for every flu vaccine**
Pharmacists will receive 10p more per flu vaccination administered from 1 September 2019.

**US authorities investigate 150 cases of respiratory illness linked to e-cigarette use**
The US Centers for Disease Control and Prevention is investigating nearly 150 cases of respiratory illness, primarily in teenagers and young people, that are potentially linked to e-cigarette use.

**Hay fever: OTC management**
More patients may seek advice on hay fever in the future since NHS England has advised GPs not to routinely prescribe products that are available over the counter for this condition.
