Just 550 pharmacy staff referred for COVID-19 testing in first ten days of national scheme
Just over 550 community pharmacy staff members were referred for COVID-19 tests through a national booking system run by the Care Quality Commission, over ten days in mid-April 2020, the NHS watchdog has told The Pharmaceutical Journal.

Immunoncology agents for cancer therapy
Abstract: Until recently, cancer therapy comprised of four main types of treatment: surgery, radiotherapy, chemotherapy and targeted therapy. Over the past decade, immunoncology (IO) has emerged as a novel and important approach to cancer treatment through the stimulation of the body’s own immune system to kill cancer cells. This newly recognised method of treating cancer is
Targeting COVID-19: the drugs being fast-tracked through clinical trials and how they work
The NHS is rapidly enrolling patients into studies as part of a focused international effort to find medicines that will interfere with viral replication or help modulate the immune system response.

COVID-19 LATEST: Valproate reviews must not be delayed, says medicines regulator
All the most important developments in the COVID-19 pandemic for pharmacists and their teams, as they happen.

Leyla Hannbeck: ‘COVID-19 has many pharmacies struggling to keep their heads above water’
The chief executive officer of the Association of Independent Multiple Pharmacies speaks about how the coronavirus pandemic has affected pharmacy and the risk of impending closures.

NHS England advises pharmacies to ‘risk assess’ BAME staff for susceptibility to COVID-19
NHS England has advised pharmacies to risk assess staff who may be particularly vulnerable to COVID-19, including those from a black, Asian or minority ethnic background.

Everything you should know about the coronavirus outbreak
The latest information about the novel coronavirus identified in Wuhan, China, and advice on how pharmacists can help concerned patients and the public.

Manufacturer to move hydroxychloroquine production to the UK to avoid shortages
A manufacturer has announced plans to move production of hydroxychloroquine — currently being trialled as a COVID-19 treatment — to the UK from abroad to combat potential shortages.

A message to preregistration trainees in the time of COVID-19: this setback can make you stronger
Stephen Sekimwanyi, a pharmacist who has had his fair share of career setbacks, offers advice to preregistration trainees in light of the General Pharmaceutical Council’s decision to delay the pharmacy registration exam.

Case-based learning: anxiety disorders
There are many types of anxiety disorders with varying levels of severity. Pharmacists should know the treatment options that are available and how to support patients.
