

# Assign library

**Libname <libref> <path>;**

Libref maximum 8 characters; letters, underscore or numbers; cannot start with numbers; no special characters.

It is helpful to start a programme with a path macro: **%let path=<folder path>;**

To invoke the macro: **libname <libref> "&path";**

A macro will only be recognised if placed within double quotes

To change a libref: **libname <libref> clear;**
